CANYON

200Mbps Ethernet powerline Adapter

CNP-PLA200

CNP-PLA200 is a poweline adapter that takes advantage of existing electrical wiring in your building to create or extend a computer network. The instalation is very simple, you just need to plug the adapter into the powe outlet, connect the device via network cable to the adapter, press encryption buttons and you're done ! There is no additional wiring required. With a transfer rate up to 200Mbps and cable length up to 300 meters, CNP-PLA200 provides great performance which ensures smooth HD video streaming, online gaming and VoIP.

CNP-PLA200 supports 128-bit AES encryption which protects the powerline networks from attacks and QoS (Quality of Service) which prioritizes data in your network.

CNP-PLA200 also supports power saving mode which is implemented in the Powerline Adapter to reduce the power consumption by 65%.

Key Features

- Easy Plug-N-Play operation, No configuration required
- High-speed data transfer rate of up to 200Mbps
- Transfer distance up to 300m
- 128-bit AES encryption to secure powerline communications
- Implemented power save mode reduces power consumption by 65%
- Supports QoS, prioritizes data, ensures smooth video streaming, online gaming and VoIP
- Small and elegant design
